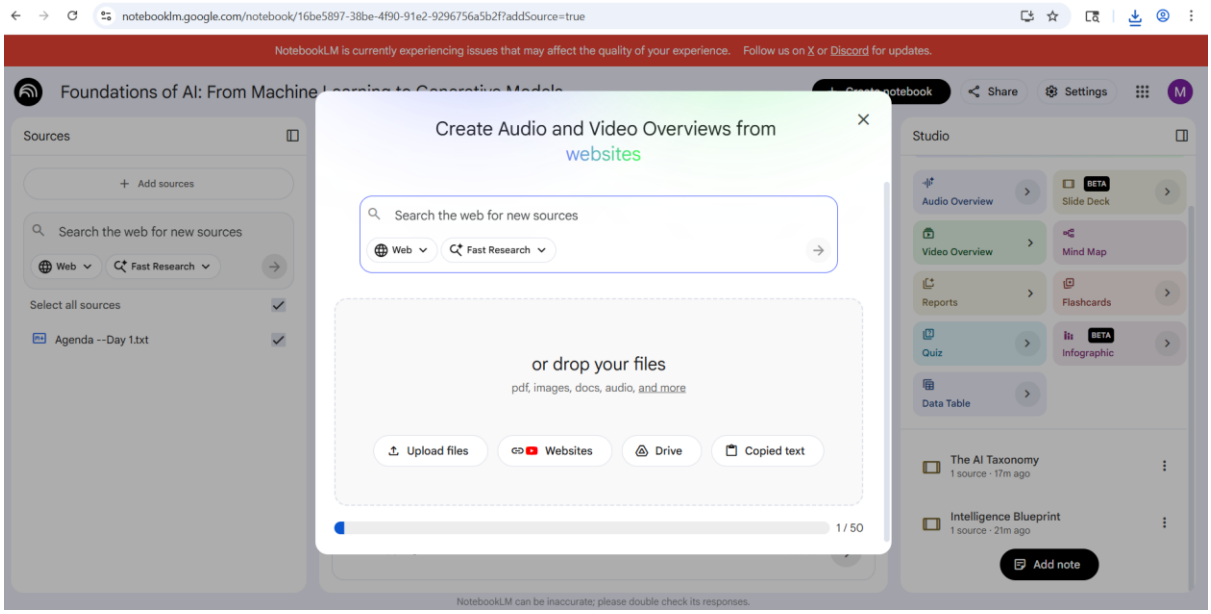
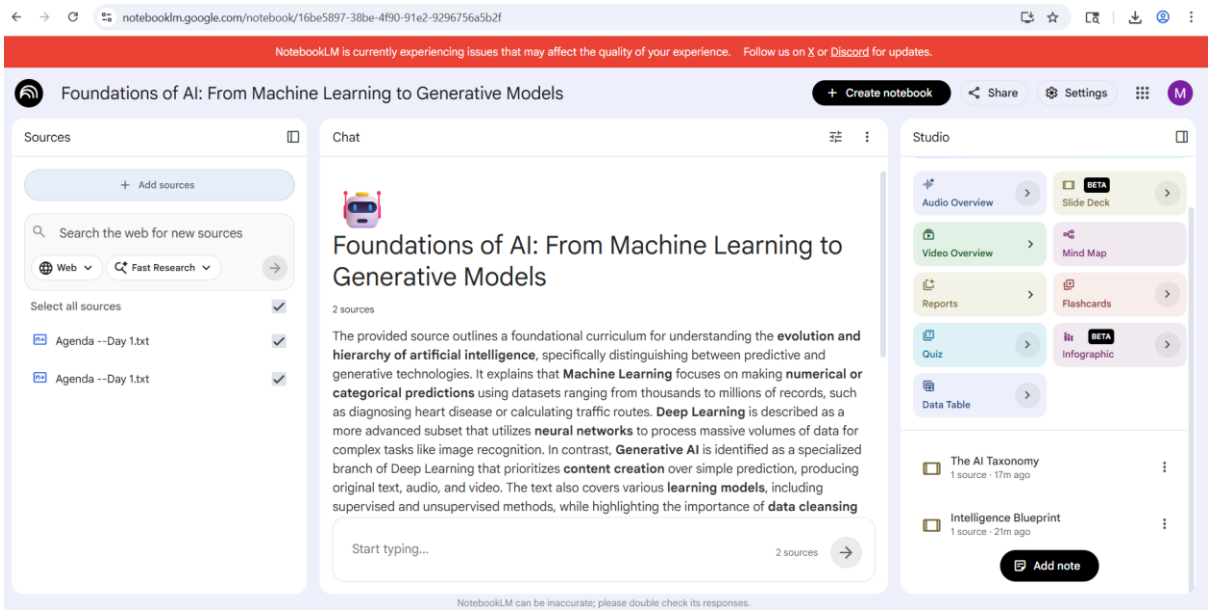
Week1Day1

Home assignments is to Generate Agenda file to easy understandable context using notebooklm

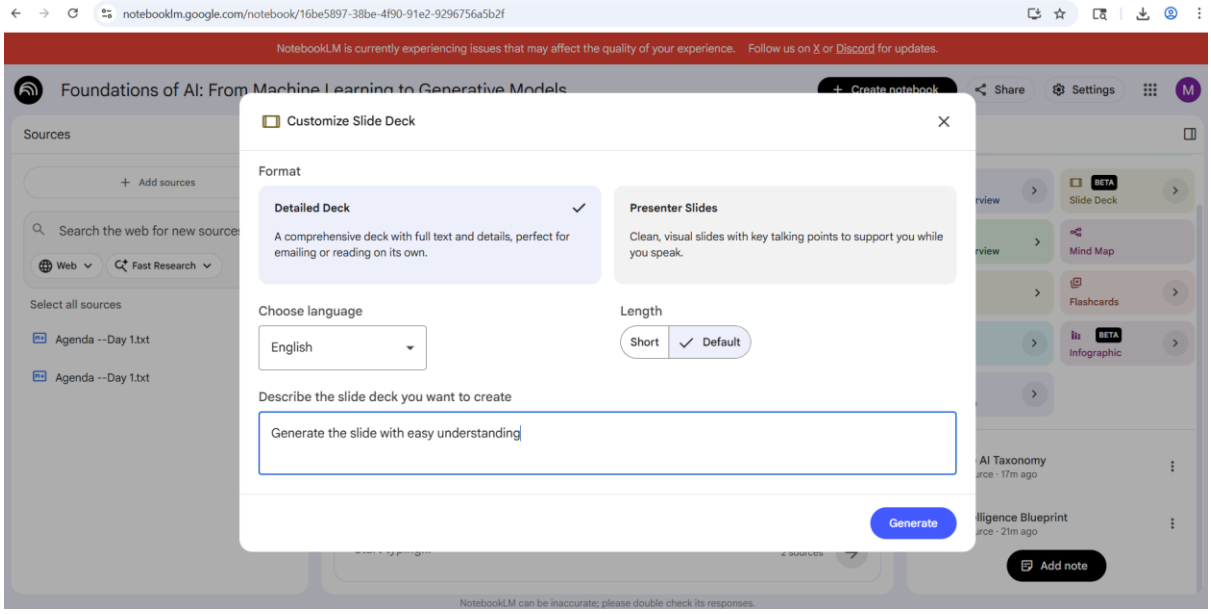
In notebooklm page the file Agenda has been dropped down



Once uploaded Agent gives the overview in text format



Where we have Slide deck option in right in the check for detailed deck and required provide a prompt and generate



Later sometimes we will get the slides which can be downloaded in PPT and PDF format

The Architecture of Intelligence
Intelligence operates in nested, specialized layers
Artificial Intelligence
Machine Learning (ML)
Deep Learning (DL)
Generative AI
Artificial Intelligence predicts the future using the past
Prediction Engine
Current Input
Historical Data
Output
Machine learning finds patterns
without explicit programming
